RAGUL MURUGESAN

Java Full-Stack Developer (Fresher) | Spring Boot | JDBC | MySQL |
Seeking Entry-Level Opportunities
Namakkal, Tamil Nadu, India

Summary

I'm Ragul Murugesan, an aspiring Backend and Full-Stack Developer with a strong foundation in Java and modern web technologies. Currently pursuing my B.E. in Computer Science and Engineering, I'm passionate about building scalable, efficient, and user-centric applications.

Inspired by Ada Lovelace, the world's first programmer, I believe in the power of innovation and continuous learning. Her pioneering vision motivates me to dive deeper into software development and create solutions that make a meaningful impact.

What I Focus On

Core Java & Object-Oriented Programming

Backend Development using Spring Boot

RESTful API Design & Integration

Full-Stack Development (Java, Spring Boot, HTML/CSS/JS)

Database Management with MySQL & JDBC

Problem-Solving & Clean Code Practices

Continuous Learning and Skill Improvement

Career Goal

To grow as a skilled Java Backend Developer, contribute to impactful real-world projects, and continuously expand my capabilities in backend engineering and full-stack development.

Experience

Fantasy Solution

Full Stack Developer

February 2026 - April 2026 (3 months)

Trichy

As a Freelance Full Stack Developer, I build end-to-end applications focused on strong backend architecture using Java, Spring Boot, JDBC, and MySQL. I also handle basic front-end integration when needed, but my primary expertise is backend development and database-driven systems.

Education

CMS College of Engineering

Bachelor of Engineering, Computer science and engineering · (September 2022 - June 2026)

CMS College of Engineering

Bachelor of Engineering - BE, Computer Science and Engineering · (September 2022 - May 2026)

Government Higher Secondary School
