PROFESSIONAL SUMMARY

Aspiring Software Development Engineer with solid experience in Java and backend development using Spring Boot, JSP, and JDBC. Skilled in building scalable web applications following MVC architecture with MySQL database integration. Demonstrates strong problem-solving abilities and foundational knowledge of data structures. Passionate about delivering clean, maintainable code and contributing effectively to product-based development teams.

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript
- **Web Technologies:** JSP, Servlets (Jakarta EE), Spring Boot, HTML, CSS
- **Databases:** MySQL, JDBC
- **Tools & IDEs:** Apache Tomcat, Eclipse IDE
- **Concepts:** MVC Architecture, Data Structures, Problem Solving, Machine Learning, UI/UX

PROJECTS

Student Management System | Java Web Application

- Developed a full-stack web application to manage student records, marks, and fees.
- Implemented secure login and registration features using MVC architecture.
- Established JDBC connectivity with MySQL database.
- GitHub: github.com/Ragulrajesh11/SMS

Portfolio Website

- Designed and developed a responsive personal portfolio website to showcase skills and projects.
- Utilized HTML and CSS for front-end development.
- Live Site: ragulrajesh11.github.io/Portfolio/

SmartShop – E-Commerce Management System | Java Web Application

- Created a full-stack e-commerce web application managing products, users, and orders.
- Implemented secure user authentication and role-based access control using MVC architecture.

- Integrated JDBC connectivity with MySQL for efficient data management.
- GitHub: github.com/Ragulrajesh11/E-commerce-Web

Portfolio - Dynamic portfolio Generator | Java Web Application

- Developed a dynamic web application that generates personalized portfolio websites.
- Designed MySQL database schemas for managing user and project data securely.
- Created responsive and customizable UI components for portfolio generation
- GitHub: github.com/Ragulrajesh11/dynamic-portfolio-generator

Real-Time Fraud Detection and Prevention in E-Commerce Using Machine Learning

- Developed a system to detect fraudulent transactions in real-time using machine learning algorithms.
- Applied data analysis and classification techniques to identify suspicious activities.

INTERNSHIP EXPERIENCE

Full Stack Developer Intern – Fantasy Solution, Trichy

- Contributed to the "Hello Train Application" full-stack project.
- Developed frontend components using HTML, CSS, and JavaScript.
- Built backend services with Java and Spring Boot.
- Integrated MySQL database for data management.
- Gained hands-on experience in real-time application development.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science and Engineering

CMS College of Engineering, 2022 – 2026

CGPA: 7.8/10

Higher Secondary Certificate (HSC) – 75%

Secondary School Leaving Certificate (SSLC) – 70%

CERTIFICATIONS & COURSES

- Java Full Stack Web Development Training – Tap Academy
- UI/UX Bootcamp – De mentee Academy, June–July 2024

ADDITIONAL INFORMATION

- Available for internships and entry-level Software Development roles .
